EXPERIENCE

Full Stack Developer

Audix Technologies Pvt Ltd.

📅 08/2022 - Present 📍 Thane

- Developed and Maintained Web Applications (MERN Stack)
- Maintained a user satisfaction rating of 100% year over year by providing responsive tech support to clients.
- Integrated third-party APIs and services to enhance application functionality.
- Conducted thorough testing and debugging to ensure the delivery of high-quality software

PROJECTS

E-Commerce Application

📅 2022 - 2022 📍 Mumbai

The ecommerce app enables online shopping, product browsing, wish list creation, cart management, and seamless purchases.

- Responsive UI: Designed user interfaces that seamlessly adapt to different devices, ensuring consistent user experiences.
- Redux Integration: Implemented Redux for efficient state management, enhancing application performance and scalability
- Terraform Infrastructure: Utilized Terraform to provision and manage the required hosting infrastructure, ensuring reliability and scalability.
- Docker Containerization: Containerized the application using Docker, simplifying deployment and ensuring consistency across various environments.
- CI/CD Pipelines: Configured CI/CD pipelines with GitHub for automated deployment, ensuring smooth delivery of updates and reducing manual errors.

Audit Portal-Dashboard

📅 2022 - 2023 📍 Thane

Developed super-admin and admin panels for system management and user oversight, along with a customer dashboard for personalized interactions and order tracking.

- Created user-friendly panels for system admins to manage settings, roles, and permissions, implemented an admin panel for overseeing user, content, and analytics aspects, and developed a customer dashboard for easy access to personal info, orders, and account details.
- Developed intuitive admin and customer panels for streamlined system management and personalized user interactions.
